**Subject:** Topics for April 11th EPA/SWRCB joint call

Hi folks,

I just got off the phone with Dave to scope our next call. We're hoping to zero in on topics with tangible outputs.

On our next call, let's talk about these topics (and/or others if folks would like to suggest 'em), pick one (for now), and think about ways in which US EPA Region 9 and the SWRCB can collaborate to substantively address the questions posed.

Topic 1: Water Reuse V. conservation

Question: How do we ensure state and federal reuse policies encourage and incentivize conservation?

Topic 2: Funding eligibility guidelines

Question: How do we ensure state and federal eligibility guidelines incentivize sustainable water management?

Topic 3: Stormwater and wastewater regulatory

Question: How do we ensure state and federal regulatory requirements incentivize smarter water solutions?

Happy Friday everyone,  
Charlotte
